PANDA

MB500

UM562

Uway MMS Cellular Game Cameras

Using the MMS/SMS/E-Mail via GSM Network, the Uway Cameras can send images to any e-mail address and phone number you choose (data rates may apply). Good quality images can be sent immediately and arrive to your inbox/phone in less than a minute or they can be sent in a daily batch. All images sent via MMS are also stored on the memory card in the camera, Battery life is no issue with the camera taking thousands of images on a single set of batteries. Can be used as a standard game camera when MMS is not in use. Requires account/SIM Card from AT&T or T-Mobile for data transfer. UM562 has low red glow infrared flash, MB500 and Panda cameras have completely invisible black flash.

- Up to 8.0 mega pixel, Built-in Color Viewing Screen
- Accepts SD memory cards (up to 32GB)
- Day/night-video clips (1-60 sec)
- Time-out settings (1 sec - 60 minutes)
- "No Flash" uses up to 60 infrared LED's to reach 50 ft.
- Power Source 4, 8, or 12 AA-cell batteries
- 6V DC port for optional external battery source
- 1 year warranty

TROPHY CAM

Bushnell Trophy Cam

One of the smallest game cameras at a mere 5.5" x 3.5", Perfect for those multi-camera setups and easily fits into a backpack or fanny pack. The latest Trophy Cam has a 2x time lapse feature allowing the camera to take time lapse photos during two separate time slots (like morning and evening). A more intense IR flash for capturing game up to 60' away. This is great camera to use a security device or to measure work that is being done on a construction site, not to mention its capabilities as a food plot or watering hole monitor. Other improvements include a faster night-time shutter speed making for sharper focus of night time images. MAX HD models incorporate completely invisible IR LEDs great for remote security at a lake house or barn.

Laser Genetics ND3 Laser Scope Lights

The ND3 Laser Designator uses patented technology to create true night vision and turns your scoped rifle into a night hunter. Combining a powerful, eye safe green laser diode and a precision optical collimator, the ND3 pairs with your scope and allows you to cast a bright beam of green laser light to fully illuminate targets up to 250 yards. The patented optical collimator allows for quick, one hand, full range adjustment of beam diameter and light strength with just 180 degrees of rotation. You never have to take your eyes off the target or your hand off the trigger. High power green laser light reflects intensely off the eyes of animals allowing quick detection up to 250 yards. The ND3 works well for both night hunting and game spotting.

- Precision machined from high tech aluminum, Black matte anodized finish
- Fully O-ring sealed for dust and water, Fully multi coated optical lens system
- Nitrogen charged for anti-fog,
- Push Pad Switch
- 1 Year warranty
